REMARKS

Applicant has amended Claims 1 and 9. Currently in the above-identified application therefore are Claims 1-15.

The Examiner has rejected Claims 1-15 under 35 USC § 103(a) as being unpatentable over US Patent No. 5,447,085 ("Gochnauer"), in view of US Published Application No. 2002/0174755 ("Behne"), and US Patent No. 4,615,247 ("Berkeley") and further in view of US Patent No. 6,170,370 ("Sommerville"). Reconsideration and withdrawal of this rejection is respectfully requested.

Even if Gochnauer, Behne, Berkeley and Sommerville were to be combinable, the resulting combination would have a side pressure splitter disposed underneath the anti-kickback pawl, as alleged by the Examiner. However, no portion of the splitter would be disposed downstream of the anti-kickback pawl as Berkeley's anti-kickback pawl 34 is much wider than Gochnauer's splitter 20.

By contradistinction, independent Claims 1 and 9 require "a side pressure splitter disposed on the body below the first pawl... and having a portion disposed downstream of the circular saw blade and the first pawl." Because the Gochnauer/Behne/Berkeley/Sommerville combination does not have such arrangement, the combination cannot render unpatentable Claims 1 and 9 and their respective dependent claims.
